Dear Sir / Madam

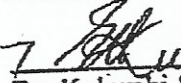

Re: AMENDMENT TO THE ENVIRONMENTAL CLEARANCE FOR STONE CRUSHING, SITUATED AT OMATEMBA, RUACANA DISTRICT, OMUSATI REGION

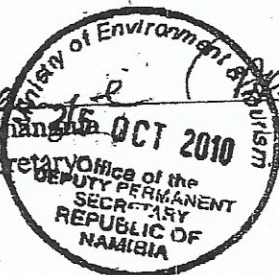

Your letter dated 19th October 2010 refers:

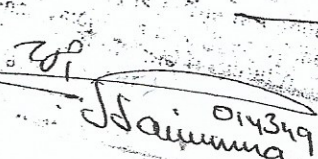

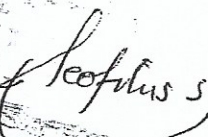

An amendment to the environmental clearance issued for your operations by this Ministry in January 2010 is hereby granted to include blasting as appropriate. Regular environmental monitoring and evaluations on environmental performance should be conducted. Targets for improvement should be established and monitored throughout this process.

On the basis of the above, this letter serves as an environmental clearance for the project to proceed including blasting. From this perspective, we issue this clearance with the following condition: all key stakeholders, particularly the regional authority, must be properly consulted and consent obtained prior to these activities. However, this clearance letter does not in anyway hold the Ministry of Environment and Tourism accountable of any wrong doing, for insufficient information, nor any adverse effects that may arise from this project activity. Instead, full accountability rests with the proponent.

Sincerely,

Dr. Kalumbi Shangana
Permanent Secretary

Saima Angula
